Features

The PC Software Package WV-ASM200 Series* is designed for integrated management of multiple Panasonic network disk recorders, digital disk recorders (hereinafter referred to as recorders), network interface units (hereinafter encoders) and network cameras (hereinafter cameras) connected to a network such as a LAN or the Internet, and runs on the Microsoft® Windows® operating system. Refer to the "Compatible devices" section of the "Readme.txt" (included on the provided CD-ROM) for further information about the devices compatible with this software.

By using this software on a personal computer (hereinafter PC) via a network, it is possible to display live images of the cameras, to play images stored on the recorder, and to download image files to the hard disk drive of the PC.

* The WV-ASM200 Series also includes Extension Software (option).

About this installation guide

This installation guide contains descriptions of how to install this software.

There are two operating instructions (PDFs) on the CD-ROM; the setup instructions and the operating instructions.

The setup instructions contain descriptions of how to perform the required settings before starting operation, for administrators (ADMIN users).

The network settings will be different depending on the settings of the LAN or the Internet service provider.

Refer to the network administrator for further information about the network settings.

Refer to the operating instructions (PDF) for how to operate each function.

The descriptions in the following pages are based on the assumption that Microsoft® Windows® 7 Professional runs on a PC.

Operation windows may not be the same as those appearing on the pages when a different OS is used or different settings are applied.

When using other OS, refer to the operating instructions of the respective OS.

Adobe® Reader® is required to read these operating instructions (PDFs).

When the Adobe® Reader® is not installed on the PC, download the latest Adobe® Reader® from the Adobe web site and install it.

*¹ This software is designed based on the default style or the font size of Microsoft® Windows Vista®, Microsoft® Windows® 7 and Microsoft® Windows® 8.

When the display style or the font size is changed from the default, it may be possible that the layout of this software collapses.

*² When using Microsoft® Windows Vista®, Microsoft® Windows® 7 or Microsoft® Windows® 8, refer to "Readme.txt" for further information about the system requirements, precautions, etc.

*³ Operates in WOW64 (32-bit mode).

*⁴ It is required that Microsoft® SQL Server 2005 Express Edition SP4 (when using Windows Vista / Windows 7) or Microsoft® SQL Server® 2012 Service Pack 1 (SP1) Express (when using Windows 8) is installed on the PC to use this software. It is necessary to prepare other disk space exclusively as storage for database and files downloaded from the recorder in addition to the required disk space for installation of this software.

*⁵ The network settings on the PC must meet those of the network environment where the PC is connected. Operations of this software on a PC with two network interface cards or more will not be covered by the warranty.

*⁶ Refer to the setup instructions (PDF) for further information about the system requirements to use the Extension Software (option).

Important:

- This software must be installed by the administrator. Otherwise, any problems will not be covered by the warranty.
 - This software uses Microsoft® SQL Server 2005 Express Edition SP4 (when using Windows Vista / Windows 7) or Microsoft® SQL Server® 2012 Service Pack 1 (SP1) Express (when using Windows 8) as the database. If any other database is installed, the database files may be damaged and this software may not work correctly.
 - Operation of this software on remote desktop is not guaranteed.
 - While running this software, do not log out of the PC nor shut down the PC. Otherwise, operation of this software may become unstable.
 - Do not use other applications, especially heavy load types, while this software is running. Otherwise, the CPU overload and the shortage of resources will cause malfunction and insufficient performance.
 - When no sound card is installed, the buzzer will not sound at an alarm/error occurrence. The audio transmission/reception function is also unavailable.
 - Use of 2-byte characters for a user name causes installation failure. Create a user name with 1-byte alphanumeric characters and perform installation.
 - Windows XP mode for Microsoft® Windows® 7 is not supported.
-

Installation

Important:

- Before installing this software, make sure that no other Panasonic disk recorder management software such as WV-AS65, WV-ASM10 or WV-ASM100 (WV-ASM100L) is installed on the PC. When the other Panasonic disk recorder management software and this software are on the same PC, operations of this software will not be covered by the warranty.
 - When reinstallation is necessary, uninstall the existing software before starting the reinstallation. An overwrite installation may cause unstable operations. When this software is uninstalled, the setup data of this software will be deleted. When the setup data is necessary, save the setup data before uninstalling this software.
-

1. Insert the provided CD-ROM into the CD-ROM drive on the PC.
2. Double-click "SQLServerSetup.exe" in the folder "1 SQLServer".
 - The installer of "Microsoft® SQL Server 2005 Express Edition SP4" (when using Windows Vista / Windows 7) or "Microsoft® SQL Server® 2012 Service Pack 1 (SP1) Express" (when using Windows 8) will be launched.
 - Install the software by following the instructions displayed on the monitor.
3. Double-click "setup.exe" in the folder "2 Disk Recorder Management Software".
 - The installer of "2 Disk Recorder Management Software" will be launched.
 - Install the software by following the instructions displayed on the monitor.
 - When installed with the ALL option, the executable files, etc. will be copied on a newly created folder "C:\ProgramFiles\Panasonic\ASM200".
4. Configure the exceptional settings of Windows Firewall.
Refer to the setup instructions (PDF) for further information.
5. Reboot the PC.
When completing steps 1 - 4, reboot the PC to complete the installation.

Launching the software

Refer to the setup instructions or the operating instructions of the WV-ASM200 for how to launch this software.

Important:

- When using this software, be sure to register the "Registration Key". Refer to the Activation Key Card for further information about how to obtain the "Registration Key".
 - When the "Registration Key" for the demo edition is registered, this software will be launched in the demonstration mode. The demonstration mode is available only during the limited period.
-

Uninstallation

Important:

- When this software is uninstalled, the setup data of this software will be deleted. When the setup data is necessary, save the setup data before uninstalling this software.
- The data downloaded from the recorder will not be deleted even when this software is uninstalled.
- Microsoft® SQL Server 2005 Express Edition SP4 (when using Windows Vista / Windows 7) or Microsoft® SQL Server® 2012 Service Pack 1 (SP1) Express (when using Windows 8) will not be deleted even when this software is uninstalled.
- When a message window is displayed in the process of the uninstallation to ask you to quit the applications, click the [Cancel] button on the displayed window to cancel the uninstallation. After stopping the appropriate services, retry the uninstallation.

Refer to the operating instructions of the OS in use for how to stop the services.

1. Open "Add or Remove Programs" in "Control Panel".
2. Select "WV-ASM200 Series" from the presently installed programs and click the [Remove] button.
→ The uninstall program will be launched and the wizard will be displayed.
3. Uninstall the software by following the instructions displayed on the monitor.
